A P R I L - M A Y N E W S

During these two months we are presenting a small, very interesting exhibition of the smaller coloured drawings and engravings by the young artist Leticia Luengo. She has had many exhibitions in her home town Madrid, and also in many diverse places in the United States, France, Germany, Poland and India. Leticia is an artist who taxes all her creative and technical abilities to the full. Her engravings are pulled personally, not so usual today, in these she shows a thorough dominion of this difficult and augean task.

We are also interested in communicating to our subscribers and friends that we have just received several interesting works from the seventies by the well known artists Guinovart & Clavé, also some new oils by Anna Lentsch and some medium sized works by the rather exceptional artist Juan José Balzi.

We are open from Monday to Friday from 5.30 - 8.30 p.m. and if these times are not convenient please call for an appointment at the number above.
